Claims Allowed

Claims 1-18 are allowable over the prior art of record. The claims are allowed because the prior art does not anticipate nor render obvious the claimed combination of a system including transmission component having a hydraulic transmission link, a transmission controller, an engine controller, the engine and/or transmission controller being controlled by either the engine or transmission controller in response to a detection of a fluid loss or to avoid a hazardous situation from occurring due to a loss of fluid in the hydraulic transmission link.

No particular single feature of the claim renders the claim as a whole patentable. Only the claim taken as a whole combination is deemed new and unobvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Prior Art Discussed

The examiner has considered the references cited by applicant in his Information Disclosure Statement filed May 11, 2005. None of the references show all of the features of the claimed invention.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dirk Wright whose telephone number is 571-272-7098. The examiner can normally be reached on Monday through Friday, 8AM-4:30PM.
